

POWER POINTS & SWITCHES - STANDARD RANGE

Good clean lines combined with functionality and reliability ensures HQE's standard range is the most cost effective option on the market.

With a full range of specialty points and mechanisms, you can see why HQE has become a viable alternative to the leading brands.

POWER POINTS & SWITCHES - SLIMLINE RANGE

The HQE slimline range is the most functional and stylish flush mount product on the market.

It offers a complete slimline/ range including brushed silver cover plates available to suit all power points and switch combinations.

The slimline/ range also has a standard cut out which is compatible with normal mounting blocks and brackets making fit off as easy as any standard product.

POWER POINTS & SWITCHES - GLASS FRONT RANGE

The new HQE Glass Series has finally brought affordability to a high end electrical finish.

The interchangeable colour schemes and striking trim will bring a sense of style and class to any home.

The series has also been designed with a standard fit off making it both functional and easy to install.

Base plates are available in White, Silver and Black and are fully interchangeable with the White, Green, Silver and Black cover plates giving you more colour options than ever before.

We also offer an extensive range of mechanisms in White as well as a range available in Black and Silver to complement the Glass series.
