## ***PRODUCT DESCRIPTION***

Consumers both commercial and domestic have very good and sound reasons to specify polyester insulation, as much of the raw materials used in the manufacture is recycled material P.E.T (polyethylene terephthalate),(clear plastic beverage containers). No gloves, masks or boiler suits required to handle our range of products.

## ***QUALITY ASSURED***

Polyester Solutions Batts are made to the highest standards and comply with the building code of Australia AS/NZS4859.1.
